*For C2C as a whole: In which technology type are you considering increased automation in the next 12—24 months, i.e. which of these technologies are you going to use more in the near future (which one is increasing most in utilization regardless of level of usage today):*

*A: ERP*

*B: Best-of-breed solutions*

*C: Custom applications (internally designed)*

*D: RPA*

**BE PASSIONATE**

What types of technologies do you see being most useful in C2C/OTC today and in the future ?

**BE PASSIONATE**

What do you think of RPA ?

**BE PASSIONATE**

What kind of technology projects do you see in C2C  
(length, type, topic, budget...)?
